RE: NOVAFLEX® Advanced Polymer Paintable Sealant NAHB® Information and Specifications

To Whom It May Concern,

Novagard Solutions continuously strives to develop new products and technologies which minimize environmental impact and promote the health and well-being of our planet, our customers and our employees. Usage of NOVAFLEX® sealants and adhesives on your green-building project will contribute to LEED® and NAHB® building certification points. This letter is made available to verify the compliance of NOVAFLEX® Advanced Polymer Paintable Sealant with the green building standard created by the National Association of Home Builders (NAHB) and the International Code Council (ICC). The consensus standard on green building projects is called the National Green Building Standard™ or ANSI ICC-700-2008.

Advanced Polymer Paintable Sealant is manufactured in Cleveland, Ohio, USA. There is no single extracted material used to produce the majority of this product. Furthermore, all raw materials used in this products manufacture come from several sources, which in turn come from one of many raw material sources. Consequently, the point source for the raw materials cannot be determined.

VOC Content Information:

Advanced Polymer Paintable Sealant has a VOC content of 40g/L (maximum) and less than 4% by weight (maximum). These levels are below the SCAQMD (rule 1168 for adhesive and sealants) levels regardless of package size.

Summary

With the above stated low VOC content, NOVAFLEX® Advanced Polymer Paintable Sealant meets or exceeds the standard limitations specified in ANSI ICC-700-2008. To qualify, an adhesive must meet very low established VOC limits as well as meet the criteria specified in Green Seal's™ GS-36. This statement is based on the NOVAFLEX® product referenced above and the formulation of this product and the regulations in place at the date of this letter. For use of this product on your green building project, you could be contributing up to five points under Section 901.9.2 of the National Green Building Standard™. Please use this letter for specification purposes and documentation for your green building project.

Additional Information

If you require any additional information or should you have any questions, please contact Customer Service or your local NOVAFLEX® Sales Representative.

LEED® is a trademark of the U.S. Green Building Council

NAHB® is a trademark of the National Association of Home Builders

National Green Building Standard™ is a trademark of the National Association of Home Builders

Green Seal™ is a trademark of Green Seal, Inc.

SCAQMD is an abbreviation for South Coastal Air Quality Management District (governing southern California)
