RE: Foam Seal PVC Green Building Product Information (LEED® information)

To Whom It May Concern,

Novagard Solutions continuously strives to develop new products and technologies which minimize environmental impact and promote the health and well-being of our planet, our customers and our employees. Usage of Foam Seal PVC insulating foam on your green-building project will contribute to LEED® and NAHB® building certification points.

1. Material Manufacturing Location

Foam Seal PVC Foam is manufactured in Cleveland, Ohio, USA. Should your job site be within 100 air miles (direct line between location and job site) this product could contribute at an increased value (Local Valuation Factor) of 200%.

2. Raw Material Extraction Information

There is no single extracted material used to produce the majority of this product. Furthermore, all raw materials used in this products manufacture come from several sources, which in turn come from one of many raw material sources. Consequently, the point score for the raw materials cannot be determine.

3. Rapidly Renewable Raw Material Information

Foam Seal PVC Foam contains 0% rapidly renewable raw material content by weight.

4. Recycled Content Information (by weight, all in packaging):

Rolls, 0% recycle

5. Summary

Foam Seal PVC Foam is eligible for the U.S Green Building Council (USBGC) LEED® NC Green Building Rating System for New Construction & Major Renovations v4. This statement is based on the Foam Seal product referenced above and the formulation of this product and the regulations in place at the date of this letter. For use of this product, you could be contributing up to one point under the Indoor Environmental Quality Rating System. Please use this letter for specification purposes and documentation for your green building project.
